EDUCATION

TEDU   Ankara, Türkiye

Bachelor's Software Engineering   *Expected Graduation, July,2026*

- Secondary Field: Applied Data Analytics
- Related Coursework: Data Structures & Algorithms, Computer Organization & Programming, Deep Learning, Object-Oriented Programming

EXPERIENCE

Software Engineer (Part-Time)

Esayar   *December 2024 – September 2025*

- Developed Ebaz.az, an upcoming cross-platform mobile application using React Native, supporting thousands of real estate and automotive listings
- Implemented advanced search and filtering, improving content discoverability and user experience
- Integrated secure user authentication and real-time data synchronization via RESTful APIs
- Designed and implemented a conversational chatbot using Gemini 2 Flash, enabling low-latency natural language queries
- Integrated chatbot with backend REST APIs to perform intent-based filtering and automated data retrieval
- Collaborated closely with backend developers in an agile, team-based environment

PROJECTS

Svetloyar   *November 2025 – Present*

- Collaborated with a team of 9 developers and artists
- Implemented complex card interaction and combat systems
- The development is still ongoing

PROGRAMMING LANGUAGES

Java, Python, JavaScript, C#, SQL
