EDUCATION

TEDU Ankara, Türkiye

Bachelor's Software Engineering *Expected Graduation, July,2026*

- Secondary Field: Applied Data Analytics
- Advanced Coursework: Completed Master's level Deep Learning, currently enrolled in master's level Reinforcement Learning (Spring 2026) as undergraduate student.

RESEARCH&PUBLICATIONS

Transformer-based Neural Translator | Medium Publication

- Full Encoder-Decoder Transformer architecture has been implemented from the ground up for English to Azeri translation.
- Custom tokenization & multi-head attention mechanisms utilizing beam-search has been developed.
- Authored analysis on backpropagation mathematics (cross-entropy loss derivatives, SGD optimization)
- Investigation into efficient model adaptation techniques, such as LORA for LLMs has been done

EXPERIENCE

Software Engineer (Part-Time)

Eco-Cash | *view demo* *March 2025 – Now*

- Developing Eco-Cash, an upcoming full-stack web application built with React, Node.js, PostgreSQL, where users can discover, explore, and stay updated on Eco-Cash related events. (in progress)
- Integrated secure user authentication and authorization via RESTful APIs and JWT tokens.
- Secure online payment is being integrated via epoint.az payment API gateway. (in progress)

Software Engineer (Part-Time)

Esayar *December 2024 – September 2025*

- Developed Ebaz, an upcoming cross-platform mobile application using React Native, supporting thousands of real estate and automotive listings
- Implemented advanced search and filtering, improving content discoverability and user experience
- Integrated secure user authentication and real-time data synchronization via RESTful APIs
- Designed and implemented a conversational chatbot using Gemini 2 Flash, enabling low-latency natural language queries
- Integrated chatbot with backend REST APIs to perform intent-based filtering and automated data retrieval
- Collaborated closely with backend developers in an agile, team-based environment

PROGRAMMING LANGUAGES

Java, Python, JavaScript, C#, SQL

FRAMEWORKS & LIBRARIES

React.js, React Native, Node.js, Express.js

WEB TECHNOLOGIES

HTML, CSS, RESTful APIs

TOOLS & PLATFORMS

Git, Unity, Postman

LANGUAGES

Azerbaijani – Native, English –Fluent **(IELTS Band 8**), Russian – Fluent, Turkish – Proficient
